# VISION

"To be **India's most trusted** name in **CNC machine protection** delivering globally competitive, tailor-made solutions with local agility. We empower OEMs with durable, smart systems and continuously innovate to meet the future of **industrial automation.**"

# STEAMLINE

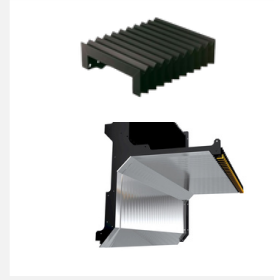

# PRODUCTS

## TELESCOPIC

We manufacture all types of telescopic covers **flat, roof type, slanted, and box type** designed to protect CNC machine guideways from dust, chips, and coolant. Each cover is **custom-built** to match your machine's dimensions and movement needs.

## BELLOWS

Available in **round, rectangular, and Customize designs**, our bellows protect guideways, screws, and spindles from dust and debris. Each unit is fully **customizable in size, material, and mounting style** to match your specific application.

## ROLLWAY

Our roll-up covers ensure **smooth retraction** and compact protection in tight spaces. Made of **coated steel**, each cover is customized to your **stroke length** and mounting constraints.

## APRON

Our apron covers are ideal for **light-to-medium** duty protection rust-proof, durable, and **space-efficient**. Built for strength and flexibility, they are custom-made for **horizontal or vertical** installation based on your machine layout.

## WAY WIPER

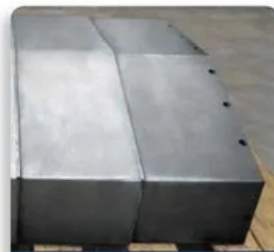

Our way wipers are designed to remove chips, oil, and debris from machine guideways—ensuring **smooth, precise movement and extending equipment life**. customizable to fit your specific **guideway profiles**.

## ENCLOSURE

We design and manufacture **safety enclosures**, splash guards, and dust-proof housings tailored for CNC machines. Our enclosures ensuring **protection, operator safety, and space efficiency**.

# SERVICE

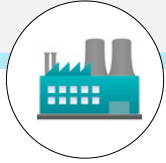

We provide expert repair and restoration of damaged machine covers, bringing them back to like-new condition. Our service ensures durability, performance, and extended life **Saving cost** and **reducing downtime**.

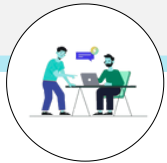

# WHY US?

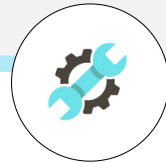

On-time delivery without delays, ensuring smooth production schedules

In-house manufacturing with strict QC for consistent, premium quality

Quick response and fast resolution to any customer issues.

Tailor-made protection covers to suit any machine size and application.
